Large Producers and Others Interested in Formation of Corporation.

CAPITAL TO BE \$50,000,000

New Company Will Seek Foreign Business Held Up by Lack of Credit.

Although no definite details of the organization have been announced, it was learned yesterday that practically all large producers and exporters of copper and allied metals are interested in the formation of a big finance corporation...

It is understood that the chief figures in the combination are American, Canadian and British companies...

As a result of the fall in exchange rates, the copper producers are operating at about a 50 per cent. rate.

When the war came to an end, the copper industry was in a state of depression.

New Status of the Railroads

The Cummins-Esch Railroad Bill, providing for a substantial return on the basis of property valuation, and the Supreme Court decision, which held that replacement value must be taken into account, should enable the railroads once more to earn a substantial return on their capital investment.

The recent advance in the market prices of leading railroad stocks reflects the restoration of public confidence in railroad security investments.

We invite inquiries in connection with the status of your present holdings or contemplated investments.
